

CARE & CLEANING GUIDE

Impact Protection Wallcoverings

FOR PRODUCTS

Impact Protection Murals with ImageLock®

BEFORE YOU BEGIN

Do not use abrasive cleaners such as 100% bleach or harsh cleaners containing solvents, or ammonia before reading these instructions as they may damage the surface and alter the integrity of the printed design.

Always follow instructions and test a small inconspicuous area before spraying an entire area with cleaner.

WARNING: Never mix cleaning agents together, volatile reactions may occur!

TO PROPERLY CLEAN STAINS

EVERYDAY DIRT

Make a **cleaning solution of 1:10 Dawn® Detergent and warm water**. Begin by wiping the soiled area from the bottom of the wallcovering and upward.

After the area has been sufficiently cleaned, rinse the area thoroughly with a cellulose sponge beginning from the top of the wallcovering and down.

The textured surface may need additional cleaning to prevent suds and dirt from lingering.

Be aware of allowing water to run down behind baseboards or any nearby door casings.

To effectively dry the thoroughly rinsed area, use a soft and lint free cloth or towel to absorb moisture and prevent any haziness that could be left behind.

DIFFICULT STAINS

For more difficult stains that are only surface deep, the use of the following stronger, yet non-abrasive, household cleaners are recommended:

1:10 Mild Soap and Water

WD-40

Krud Kutter

Methyl Ethyl Ketone (MEK)

Mineral Spirits

De-Solv-It

Goof Off

Acetone*

Formula 409

Fantastic

99% Isopropyl Alcohol

Always test an inconspicuous area first to be sure that the surface and ink are not damaged before proceeding.

Always respond to dirt, smudges and stains and clean area **immediately** to avoid allowing dirt and or stains to settle into the surface of the wallcovering.

NOTE: Repeated long-term use of stronger cleaners may cause damage and soften protective coating. Only use cleaners for more difficult stains if necessary.

*Acetone is a flammable solvent which should be used following instructions from the manufacturer.

DO NOT USE

Do not use steel wool or powdered abrasive cleaners as they may damage the image and textured surface.
